Dear Parent/Guardian,

The Texas Department of Health requires every child in the state entering **7th grade** in the 2019-2020 school year receive the following updated immunizations:

_____ **Tdap** - Booster dose required if at least 5 years have passed since last dose of tetanus.

_____ **Meningococcal Vaccination** - One dose of MCV4 is required on or after child's 11th birthday.

Students must show acceptable evidence of vaccination prior to entry, attendance, or transfer to a public secondary school.

Texas immunization law requires you to provide written proof, indicating dates, signed by a physician or health clinic, of your child's immunizations.

If your student has recently received these immunizations, please send a copy of your records to the school nurse so that your child's school records can be updated. After your child has received these required immunizations please remember to send the proof of record prior to the first day of school, August 19th, 2019.

Please forward a copy of your student's updated record to the school nurse as soon as you complete the required immunizations. This may be done in several ways:

By sending the records via **email or fax** over the summer (**preferred method**).

By bringing the records to the **7th Grade Schedule Preview**.

By sending the records with your child on the 1st day of school with instructions to deliver it to the school nurse (**prefer to receive them much sooner than this**).

Thank you for your cooperation. For any questions or concerns please feel free to contact me.

Melissa Girouard, R.N., B.S.N.
